

Technical Specifications for DNP International's Multi Floor System

Note: The following are general technical specifications. Customized specifications will be prepared for each project based on its requirements.

Topic	Parameters	
Equipment Dimensions	Length x Width	5600 x 2550 mm
Vehicle Dimensions	Weight	≤1700 KG
	Size (Length X Width X Height)	≤5000 x 1850 x 1550 mm
Motor Power	Horizontal motor	0.2 KW
	Lifting motor	2.2/3.7 KW
Operation Speed	Bottom floor shifting speed	8.2 m/min
	Upper floor shifting speed	7.6 m/min
	Lifting speed	6 m/min
Drive Manner	Shifting drive	Motor + gear and rack
	lifting drive	Motor + wire rope
Power Supply	3 phase 5 lines, 380V, 50HZ
